

# [Project Name]

## Iteration 1 Deliverable

---

*[Team Number]*

*[Member A]   [Member B]   [Member C]   [Member D]   [Member E]*

*[Date]*

# Agenda

Problem & Requirements

User Stories & Features

Technical Challenges, Risks & Progress

Architecture & Workflow

Use Cases

System Sequence Diagram

Domain / Class Model

Test Cases & Evaluation

Next Steps

# Problem & Requirements

---

## Problem Statement & Scope

*[Who are the target users, and what problem does this iteration address? Summarize any scope updates or additions since the previous iteration.]*

- **[Role 1]:** *[What they need and why]*
- **[Role 2]:** *[What they need and why]*

# Functional Requirements – Iteration 1

- *[Requirement 1 (New / In Progress / Completed)]*
- *[Requirement 2 (New / In Progress / Completed)]*
- *[Requirement 3 (New / In Progress / Completed)]*
- *[Requirement 4 (New / In Progress / Completed)]*

- *[Platform / deployment target]*
- *[Key non-functional constraint or technical dependency]*

# User Stories & Features

---

## User Stories – Iteration 1 Focus

- As a *[role]*, I want to *[goal]* so that *[benefit]*.
- As a *[role]*, I want to *[goal]* so that *[benefit]*.
- As a *[role]*, I want to *[goal]* so that *[benefit]*.

## Technical Challenges, Risks & Progress

---

# Key Technical Challenges

- *[Challenge 1: Description and current resolution status]*
- *[Challenge 2: Description and current resolution status]*

## Key Risks & Mitigation

- *[Risk 1: Impact and mitigation strategy]*
- *[Risk 2: Impact and mitigation strategy]*

# Competitive Advantage & Enhancements

- **[Competitor / Benchmark]** – *[Existing solution baseline]*
- **[Iteration 1 Value Add]** – *[What set of features or enhancements differentiates our solution]*

# Architecture & Workflow

---

*[Insert updated workflow / activity diagram here]*

```
\includegraphics[width=0.75\textwidth]{workflow.png}
```

## Use Cases

---

## Use Cases – [Subsystem Name]

**Actor:** *[Actor name]*

- *[Use case 1 (Status: Planned / Implemented)]*
- *[Use case 2 (Status: Planned / Implemented)]*
- *[Use case 3 (Status: Planned / Implemented)]*

# Use Case Diagram

*[Insert current use case diagram(s) here]*

```
\includegraphics[width=0.7\textwidth]{use_case_diagram.png}
```

# System Sequence Diagram

---

## System Sequence Diagram – [Scenario Name]

*[Insert System Sequence Diagram image here]*

## Domain / Class Model

---

*[Insert Domain or Class Model image here]*

## Test Cases & Evaluation

---

# Test Cases – Iteration 1

**Target Users/Scope:** *[Who / What component]*

| Test ID     | What it verifies           | Status                     |
|-------------|----------------------------|----------------------------|
| <i>[T1]</i> | <i>[Short description]</i> | <i>[Pass/Fail/Pending]</i> |
| <i>[T2]</i> | <i>[Short description]</i> | <i>[Pass/Fail/Pending]</i> |
| <i>[T3]</i> | <i>[Short description]</i> | <i>[Pass/Fail/Pending]</i> |

## Next Steps

---

## Looking Ahead to Iteration 2

- *[Planned feature, refactoring, or bug fix for Iteration 2]*
- *[Planned feature, refactoring, or bug fix for Iteration 2]*
- *[Upcoming technical spikes or risks to address]*
